

# GOODGAME STUDIOS' FARMING SIMULATOR AND ROLE-PLAYING GAME BIG FARM STORY LAUNCHES ON STEAM AND MICROSOFT STORE

*Goodgame Studios to Celebrate Game's Launch by Donating and Planting Trees in Collaboration with Non-Profit Organization One Tree Planted*

Hamburg, August 3, 2021 - Goodgame Studios, a leading developer and publisher of gaming software, today announced that its farming simulator and role-playing game (RPG), Big Farm Story, is now available for PC players on Steam and the Microsoft Store at \$19.99. Based on Goodgame Studios' popular Big Farm brand, which has attracted more than 92 million players worldwide with titles like Big Farm and Big Farm: Mobile Harvest, Big Farm Story delivers a completely new gameplay experience where players can craft their own story by building their dream farm with friends and animals.

After finding themselves on their missing grandfather's abandoned farm, Big Farm Story players have the opportunity to rebuild the farm to its former glory, harvest crops and take care of animals on the land. Whether decorating the farm or farmhouse, visiting neighbors or making new friends in town, players can explore, craft and collect items in nearby forests or at the beach, as well as learn new skills like fishing or cooking.

"After seeing great success during its early access phase, we are really excited to launch Big Farm Story on Steam and the Microsoft Store," said Simon Andrews, Head of Studio at Goodgame Studios. "All

the player feedback we have received so far has helped us push the game to the next level, and we are thrilled for everyone to finally get their hands on the game."

Alongside the full game, Big Farm Story players can also access a new, Asian-themed DLC, which includes a cuddly dwarf squirrel pet that accompanies them on their quest, 13 furniture and decorations items, building skins for player's farmhouses, as well as a windmill, well and animal barns with unique designs.

To celebrate the game's launch, Goodgame Studios will continue its collaboration with non-profit organization One Tree Planted to donate 1,000 trees - and plant one additional tree - for every sold game during August to help reach the goal of 10,000 trees. Big Farm Story players will have the opportunity to decide where the trees are planted by voting on their favorite locations in Big Farm Story's Community Hub on Steam:
